To the Port of Clarkston Commission:

PREFACE

The Port of Clarkston is a municipal corporation established to enhance the economic vitality and quality of life for the citizens of Asotin County by effectively managing and promoting the development of its industrial and waterfront properties. This 2016 budget for the Port of Clarkston, prepared by staff, at the will of the Commission, identifies the spending priorities necessary to maintain the existing infrastructure and to advance our mission within this community.

Three-quarters into the 2016 budget year finds the Port of Clarkston on solid ground. The Port has cash and reserves of over \$700,000 as of this date. It does not yet reflect the second collection this year of property tax income.

All except the newest purchase of the Port's buildings are presently under lease. In addition, a parcel of bare ground has an option to lease. Also, some parties have expressed interest in purchasing parcels within Turning Pointe, the new business park.

This budget narrative draws distinctions among:

- 1) capital projects, which may overlap budget years;
- 2) non-operating, non-recurring costs (capacity-building and/or technical assistance) that do not result in creating an asset but do sometimes overlap budget years; and,
- 3) annual on-going operations and maintenance costs.

The budget narrative provides an explanation with regard to completed and anticipated future expenditures that are non-operating or capital projects. Lastly, it provides explanations with regard to allocations of staff time as they assist on projects (operating, non-operating and capital); staff time is reimbursable under some grant awards.

A public hearing on and the adoption of the 2017 operating, non-operating, and capital budget was held on November 10, 2016 at 1:05 p.m. at the Port office, 849 Port Way, Clarkston, Washington. Public comments offered were considered by the Commission.

Definitions

Capital projects: "Capital projects" consist of the purchase or creation of depreciable assets that have a projected life of more than three years and whose value exceeds \$1,000 at the

time of acquisition. A number of expenses can go into creating depreciable assets, including Port-purchased materials, Port staff time, fuel to pick up materials, etc. The Port's goal in capturing these costs is to assure that the full cost of creating the asset is included. Capital assets, per the 2014 BARS¹ manual, are categorized under the chart of accounts beginning with 773.

Non-operating non-recurring projects: "Non-operating non-recurring projects" consist of one-time planning, technical assistance, capacity building or other projects that are not expected to be part of recurring operations costs or result in an asset. Examples include: DACUM development for manufacturing workforce training and specific downtown revitalization initiatives that are not capital projects. Typically, these projects occur with some outside funding assistance, with the exception of technical assistance provided to the City of Asotin on its boat launch facilities. These types of projects could start and conclude within the same fiscal year, or could span over two or more fiscal years.

Using the 2014 BARS manual for guidance, we have placed non-operating "pass-through" revenues into the non-revenue category within the chart of accounts that begins with 670 and non-expenses in 779. If Port staff is actively involved and the project is more than simply passing funds through for a specific purpose, non-operating revenues are recorded under 699 and non-operating expenses under 799.

GENERAL OVERVIEW

Port staff have acted as the project manager--and once even as the general contractor—for constructing new Port assets. In other instances, Port staff time may be either reimbursed under grant awards or dedicated as "in-kind" donations, as approved by funders to assure that the recipient has sufficient commitment to the project. In order to assure appropriate matching of income and outflows, staff time directly dedicated to creating assets or time reimbursable under non-operating projects has been transferred from operating expenses to either capital or non-operating cost categories (i.e., BARS accounts 773 or 799), as appropriate. The detailed budget attached to this narrative anticipates the need to do the same in 2017.

In addition to staff time, where costs are directly connected to creating assets, such as use of pre-purchased materials, fuel to pick up materials, etc., these costs are also expected to be billed to 773 or 799.

¹ The Washington State Auditor's Office prescribes budgeting, accounting and reporting (BARS) requirements for all local governments. The Port of Clarkston developed its accounting system based upon the 2014 BARS Manual which include the prescribed uniform charts of accounts, accounting and budgeting policies, guidance for preparing financial statements and instructions for preparing supplemental schedules required as part of the annual report to the state. An accounting system based upon the new 2016 BARS Manual does not yield sufficient detail for use as a Port management tool; therefore, the old system is transferred to new subscribed numbers only for annual reporting to the state.

The detailed budget (attached) supports the following overview of anticipated revenues, using BARS account numbers for Port Districts.

CAPITAL PROJECTS

773 - New Capital Projects in 2016 carried over into 2017

- A feasibility study on an incubator building at Turning Pointe Business Park

773 - New Capital Projects in 2017

- Grading more lots at Turning Pointe Business Park
- Continued investment in telecommunications infrastructure
- Improvements at Cruise Boat Dock to improve logistics and aesthetics

Capital Projects on the horizon

- The Port's buildings are fully leased at the time of the creation of this budget with the exception of the newest purchase at 1335 Port Drive. Current tenants, at various times, have offered to the Port for purchase buildings constructed on Port ground. In addition, other buildings being offered for sale in 2017 may present opportunities for the Port to expand its inventory of buildings.
- The Port desires to acquire one parcel of property that is bounded on three sides by Port property. While terms for acquisition are not favorable today, those circumstances could change and the Port may wish to acquire that specific parcel, or potentially other parcels, to help advance economic development objectives.

NON-OPERATING NON-RECURRING PROJECTS

779/799.9 - Non-operating non-recurring projects wrapped up in 2016

- Securing planning assistance grant for City of Asotin boat launch restoration project

779/799.9 - Non-operating non-recurring projects carried over to 2017

- Assisting City of Asotin in permitting required under City of Asotin boat launch restoration project, with staff time committed as part of the match
- Assisting the City of Asotin in land conveyance authorized under WRRDA
- On-going support to the Metal Supercluster (through CEDA)
- On-going support to the Lewis-Clark Valley Wine Alliance

779/799.9 - New non-operating, non-recurring projects in 2017

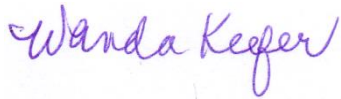

- Assist, as necessary, with strategic planning downtown revitalization projects

New non-operating, non-recurring projects on the horizon

- Downtown revitalization opportunities, as yet not well defined

PROPERTY TAX LEVY

The property tax levy rate for 2017, even with an increase in 2017 tax revenues, is expected to be lower than the 2016 rate. (This is because investments in the community and valuations are increasing at a faster level than the 1% increase over last year.) The 2016 tax levy rate will not be available until December 2016 or January 2017. For reference purposes, it is helpful to know that the rate for 2016 was \$0.21201 per \$1,000 of assessed property value within the Port District, which equates to a total tax of \$42.40 per year for a home valued at \$200,000. The maximum levy rate applicable to a Washington Public Port without special assessments is \$0.45 per \$1,000 of assessed value. The Port of Clarkston's levy rate will continue to be less than half of the maximum rate.
