9.1 Definition

The charges assessed against ocean or river vessels for berthing at a wharf, piling structure, pier, bulkhead structures, or bank, or for mooring to a vessel so berthed.

Two types of berthing facilities exist at the Port of Clarkston:

9.2.1 One general cargo terminal currently exists at 14th Street.

9.2.2 One cruise dock terminal currently exists at 7th Street.

The period of time upon which dockage will be assessed for berths shall commence when the vessel is made fast and shall continue until departure.

9.4 Basis for Computing Charges

9.4.1 At the 7th and 14th Street facilities, dockage charges shall be based on the overall length of the vessel as published in the most current edition of *Lloyds' Register of Shipping* at the time the vessel is berthed. Should length figures not be available from that source, the Port may accept information from the vessel's official papers or measure the vessel.

9.4.2 Vessels berthed at terminals may request lay status at idle berths. Lay status may be granted, at the discretion of the Port, at idle berths prior to or after the conclusion of cargo loading, or embarking/disembarking passengers. The request for lay status must be received by the Port, prior to the vessel's departure. The dockage charge for lay berth status shall be calculated at 30% of the applicable dockage rates as published in this item or a minimum of \$110 per 12-hour period or fraction thereof, which ever creates the greater revenue.

9.4.3 Vessels on lay status seven (7) consecutive days or longer may be granted special lay berth status when berths are available.

9.4.4 Vessels at berth, making alterations or repairs, shall pay dockage of \$1.70 per foot in length overall (LOA) per day. After the first 12 hours at berth, vessels will be charged at one-half (½) the applicable rate per 12-hour period or portion thereof.

9.5 Periods

Dockage shall be assessed in 12-hour increments or fractions thereof for all berths.

9.6 Late Charges

For all invoices not paid within 60 days from date of billing, there will be assessed a 1.5% charge per month of the total billing.

Applications for General Cargo berth assignment must be made at least six (6) days in advance of the arrival of vessel and must specify ETA, ETD and the nature and quantity of freight to be loaded or discharged. The application for vessel berth reservation form for the Port of Clarkston General Cargo Berth is in Item 10.7 of this tariff.

10.2 Berth assignments are non-transferable, conditional permits, revocable without notice, which may be issued at the sole discretion of the Port of Clarkston to the owners, agents or operators of vessels for the use of a specific berth by a specific vessel for a specific time period.

10.3 Berth assignments made by the Port are subject to alterations and revocation under the following conditions

10.3.2 Any vessel experiencing delays for any reason in cargo loading or discharging operations may be ordered to vacate the berth at the sole discretion of the Port.

10.3.3 Whenever the Port determines that a congested condition exists, any vessel on berth may be required to work continuously in a 24-hour period or until work is completed. Should there be a refusal to comply, the Port may order the vessel to vacate the berth.

10.3.4 All costs of additional or overtime labor, or equipment, pilotage, tug-hire, linesmen or those of any description arising from the requirement of the Port under these rules shall be for the vessel's account.

10.4 Vessels Required to Vacate a Berth

10.4.3 The Port at its option may affect the removal of a vessel from the berth at the time period specified in the Order to Vacate with all risks, liability and expense for the vessel's account.

10.5 Assignees Liable for Damage

All persons to whom berths have been assigned shall be responsible and liable to the Port for any damage occurring to such assigned property while a vessel is berthing or departing, or any damage occurring during their occupancy. Upon the refusal, failure or neglect of any such person to accept responsibility and liability in the manner and under the circumstances aforesaid, the Port Director may immediately revoke the assignment to any such person without notice and may refuse the use of any wharf, berth or facility to any such person until the Port has been fully reimbursed for any such damage.

10.6 Liability of the Port on Berth Assignments

10.6.1 Issuance of berth assignments by the Port does not warrant the depth of water alongside the assigned berth.
